**CONSERVATION  
INTERNATIONAL**

Conservation International (CI) and The Asia Foundation (TAF) have joined forces to support the development of a comprehensive, multi-sectoral strategy for the Greater Mekong region. This strategy will focus on addressing the region's most pressing environmental and social challenges, including climate change, biodiversity loss, and land degradation. The strategy will be developed through a series of workshops and consultations with government officials, civil society organizations, and the private sector. The strategy will provide a clear vision and roadmap for the region's future, and will serve as a key reference point for policy-making and implementation.
